This webinar will take a deep dive with experts in the field, addressing the questions you want answered and sharing tips to help you stay healthy. The speakers will address the COVID-19 situation as it relates to alopecia areata today, from risk factors to protective measures and more. Please submit your questions when registering so the experts can fully prepare.

Featured Speakers

Dr. Natasha A. Mesinkovska is Associate Professor of Dermatology and Director of Clinical Research in Dermatology at UC Irvine School of Medicine. She also serves as NAAF’s Chief Scientific Officer. Dr. Mesinkovska is a Mayo Clinic and Cleveland Clinic trained dermatologist and dermatopathologist who has a special interest in hair loss disorders and the role of the immune system in controlling conditions such as alopecia areata.

Dr. Maryanne M. Senna is a board-certified dermatologist and Assistant Professor of Dermatology at Harvard Medical School who specializes in the diagnosis and treatment of hair loss disorders. She also serves as Principal Investigator of the Hair Academic Innovative Research Unit and co-director of the Hair Loss Clinic at Massachusetts General Hospital. Having been diagnosed with alopecia herself in the past, Dr. Senna has personal insight and empathy for her patients.
