Alopecia Areata is an autoimmune disease that effects the hair follicles often causing hair loss. It is unpredictable in all aspects, when it will strike, how much hair will be lost and when and whether hair will regrow. There is no known cure for it. The National Alopecia Areata Foundation (NAAF) is a non-profit organization that supports research to find a cure or acceptable treatment for Alopecia Areata, supports those with the disease and educates the public about Alopecia Areata.

**We are looking for vendors, food trucks,
sponsors and items for our silent auction. If
interested, please email
tortoiseandthehair5k@gmail.com**
