Nova Southeastern University College of Osteopathic Medicine and Public Health is seeking volunteers to participate in a survey on the attitudes and behaviors of people living with alopecia areata toward seeking and accessing psychological counseling; and their satisfaction with the current provider and management.

Do you have Alopecia Areata?
Alopecia areata is a common autoimmune skin disease that causes hair loss on the scalp, face and sometimes on other areas of the body.

MUST BE:
- 18 years of age or older
- formally diagnosed with alopecia areata by a physician

To participate, please click here. For questions, please contact below:
